

## BOCCHETTONE "EURO" IN TPE CON CODOLO H mm 250 e mm 400.

Realizzato con uno speciale compound di gomma termoplastica, resistente alle basse temperature (flessibilità a freddo = -40°), è compatibile con qualsiasi membrana a base di bitume.

La flangia è dotata di canali a "coda di rondine" e di una speciale zigrinatura che garantiscono l'aggancio delle membrane bituminose.

Il codolo è dotato di due o tre coppie di alette antiriflusso, a seconda che sia lungo 250 mm o 400 mm

## ROOF DRAIN "EURO" MADE OF TPE WITH A 250 or 400 mm SPIGOT

Manufactured of a special compound of thermoplastic rubber, it is highly resistant against low temperatures (cold flexibility = -40°) as well as perfectly compatible with all sorts of bituminous waterproofing membrane.

The traditional dove-tail channels and special shagreens on the flange allow a perfect bond to the membrane making the seal 100% effective.

According to the length of 250 or 400 mm, the spigot is provided with two or three couples of anti-infiltration tongues that prevent any possibilities of infiltration between the spigot and the drain pipe.
